

I am writing to urge you to grant the
Petition to prohibit the slaughter of
downed animals - docket number
98P-0151/CP1.

- Animals too sick or injured even to stand
should not be allowed to enter the human food
chain.
- Downed animals increase the risk of bacterial
contamination as well as BSE
- Downed animals are routinely moved inhumanely
including pushing w/ tractors and dragging with
chains, causing broken bones & torn ligaments.
- Prohibiting their marketing will cause no undue
economic hardship because they comprise such a
small percentage.

Thank you for your consideration. *Mr. Jull*
